The screenshot shows the Cloudflare Zero Trust dashboard. On the left sidebar, the 'Devices' option is highlighted with a red circle and a red number '1' next to it. The main content area is titled 'Devices' and contains a section 'Securely send traffic from your devices to Cloudflare' with options to 'Connect via WARP' and 'Connect with agentless options'. Below this, there is a 'Recommendations' section with 2 items. The first item is 'Manage WARP client settings', which has a 'Manage settings' button circled in red with a red number '2' next to it.
